Imported tenants: deposits check

Production data as of 02 Oct 2026 16:01 (Nairobi time) · 567 tenants

Question: were these tenants' deposits already paid before they were added to the system?

These tenants were entered on 1 Aug 2025 and each was charged their deposit that day. The system only keeps a running balance, so it cannot tell which bill a payment was for, and therefore cannot know whether a deposit was paid. What each tenant paid by 31 Aug 2025 is a clue: a new tenant pays rent + deposit, while someone already living there pays rent only. Please circle on each row: Yes if the deposit was paid before the system (it should then stop counting as owed), No if it is genuinely still owed.

Three duplicate leases created on the same day (Citic D1 l2722, Gitete 1 l302, Mbatha Prog B07 l5316) are left out; they are being deleted.

What they paid by 31 Aug 2025	Tenants	Their deposits (KES)
Rent (+ arrears b/f) + deposit, or more: deposit looks paid in the system	229	1,893,200
Rent (+ arrears b/f) only: looks like an existing tenant	145	902,987
Nothing, less, or in between: can't tell	193	1,323,243
Total	**567**	**4,119,430**
